

Community Investment Strategy

Leinster Reinforcements Ltd believes in running our business in a way that reflects our methodology of being a people orientated company. This focused on our customers, the general public, local businesses and our own employees. We aim to carry out our operations with reliability in a safe and practical way where possible, we will continually manage and review our environmental impact.

Our workforce is ingrained in the community, our staff have an understanding and good relationship with the community, this aids in the use of local suppliers and sub-contractors which in turn provides further employment opportunities in the community. We make a valuable contribution to the community by supporting local charities and social groups annually.

Local community social groups, charities, organisations and projects are supported in a variety of ways generally on a one-off basis which may be a financial donation or time commitment.

This policy is reviewed annually.
