

Water-Abstraction Policy

Leinster Reinforcements Ltd does not use a significant amount of water as part of its production process, any water used is purely for welfare of staff and visitors. However, Leinster does recognise that it is always necessary to minimize the use of water consumption on its premises, especially from resources that are not renewable.

Leinster aims to act responsibly and within the existing framework of local legislation, as such the use of water will be monitored yearly with any changes in the use of water automatically triggering a review of this policy.

Managing Director

Frank Brazil

A handwritten signature in black ink that reads "Frank Brazil". The signature is written in a cursive, slightly stylized font.
